

Z-LASER

ZA

- » Battery operated laser for line, point or cross projections
- » Operated by a 1.5V battery (AA) or 1.2V accumulator (patented)
- » Maintenance-free magnetic On/Off switch
- » Optical output power up to 5mW, red
- » Dimensions: Ø 20 x 108mm

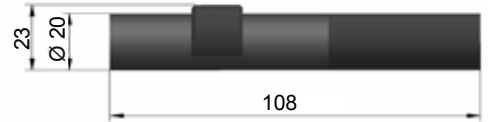

Wood

Stone

Metal

ZA

Mechanical specifications

Dimensions	108mm x Ø 20mm
Housing	Black plastic
IP rating	IP64
Electrical isolation	Potential-free housing

Electrical specifications

Supply voltage	1.5V (AA battery) or 1.2V (rechargeable battery)
Operation mode	APC
Modulation	No

Optical specifications

Wavelength	635nm
Output power	Up to 5mW
Adjustable focus	No
Available optics / projection	Line, dot, DOE cross

Environmental conditions

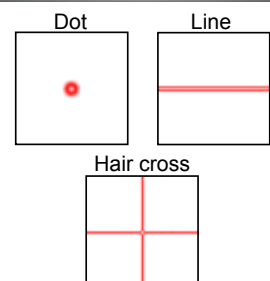

Case temperature	-10°C to +40°C
------------------	----------------

CE CE-Conformity according to the directives 2004/108/EC and 73/23/ECC excluding connection type.
